The Property Stramship Line. Messrs. Willus & Christin, agents of the steamships Emily B. Soude and Moneka; have received information that the representatives of these steamships at New York have leased the pier No. 4 North River, which was formely used by the steamships Columbis. Nashville and others, and known as the berth for the Charleston line of steamships. Its long established reputation as the starting point for the Charleston trade, its convenient position to business, and other general advantages, should make it a valuable sequisition to this popular line of steamers. THE SCHOONER BOBERT CALDWELL.—We notice the

descrance of this vessel for Havre, with perhaps the largest cargo that has ever gone from this port in a vessel of her class. She carries as follows : 1469 bales upland cotton.

short of \$9000, in gold, and we really think that Capt. John McCormack and his owners have been very successful in the commencement of her voyage, and wish them success to the end.

This vessel is one of the Mer hants line of New York packets and is cleared by Mr. William Roach, our esteemed fellow citizen.

KELLEY'S CONTRO. Our readers will be deligted to learn that the Hon. WM. D. KELLEY, M. C., from Philadelphia, Pa., will start next week in the k of the Hon. HENRY WILSON, t. c., on a political tour through the "Rebel" States. Judge Krazzy is a simon pure Badical, and is one of the man, who, before the war, confined their missionary labors altogether to the North. He will proceeu io Wilmington, North Carolina, via Goldsboro', and from Wilmington direct to Beaufort, South Carolina. From thence h: will go to Savannah, Georgia, speaking there, and returning North by way of Charleston and Columbia, South Carolina, and then a to Greensboro', Concord, Salisbury, Charlotte, Danville and other points in the western part of the old North State. Judge KELLEY'S labors will begin in North Carolina about Monday, the 6th of May.

AUGUSTA ENGINE. - It seems that we are not the only city that has fire companies on the brain. Augusta is emulous of rivalling Charleston, and has been stirring up the Fire Department to the necessity of having steam engines. The Emity B. Souder brought, as a part of her last cargo, the Vigilant No. 8—a new steam engine for the company of the same name in Augusta. The Vigilant is from the Amoskesg Company, and is, in many respects, similar to the new steamer of the Palmetto. It is somewhat smaller, and the sea voyage has discolored the brass and copper work; but when the Vigilant boys receive her, they will soon effect a transformation. She was made the guest of the Palmetto while in this city, but will leave for Augusta by the morning train to-day. We congratulate the Augusta firemen on their acquisition, and hope the time is not far distant when the generous rivalry of last year will be repeated, and the Charleston and Augusta langues be again

SUPPLIE PO MORE POST Accordent.-Among the incidents connected with the parade of yesterday was an unfortunate occurrence which took place at the corner of Broad and King ctreets. A horse ridden by a Federal soldier become frightened at the smoke of an engine, and the bit breaking in his mouth he was loosed from all, restraint. The soldier while endeavoring to calm the excited animal heared the growd, and a lady, gentleman and little child were knocked down and trampled upon. Fortunately the lady escaped any serious injury, and beyond a few she was far more frightened than hurt. Mr. Corson was trampled upon, the horse's feet striking him on the ankle and instep inflicting a bed cut on the latter; but the child, a little boy of six years of age, received a blow from a boof in his face which inflicted a severe wound, fracturing the skull. There was no immediate danger, but it was considered to be a serious wound. The whole affair was entirely accidental, and was caused by the horse becoming alarmed at the smoke and dust of the steam engines.

DESTRUCTIVE FIRE YESTERDAY MORNING-LARGE Loss or PROPERTY. About 2 o'clock on Sunday morning an alarm of fire was sounded, which we soon ascertained to be in the first ward, We repaired to the spot—the north store of several stores known as the Prioleau Block, on East Bay, corner of Brown's wharf. The store was occupied by Mr. L. F. KOESTER, and used as a wholesale grocery establishment. There were but few persons, present when we arrived at the scene. The entire lower floor, through and through the building, was on the. The Vigilant, being the nearest engine, was stone at hand, and the Palmette are not long bearind, and both at once set to

The Hook and Ladder came next, and all the others, as always, promptly obeyed the summons. There was fortunately but little wind, and that was from the south. Mr. THOS. H. Accidental Drowning.—We learn by a private letter of a melancholy accident that occurred in Summerville on last Saturday. Mr. Jas. W. Brown, a son of Mr. J. T. Brown, an old citizen of that place, was accidentally drowned while fishing in Saw Mill Creek. He had gone with several friends to this pond for the purpose of fishing, and had gone out on a fallen tree, but his line caught in a snag, and in endeavoring to loosen it he lost his balance and fell overboard. His companions were unable to render any assistance, and Mr. BROWN, after rising several times, finally sank. One of his friends crept to the end of the tree and held out a long pole to Mr. Brown, who seized it, but could not retain his hold, and to save himself Mr. FARR, who was on the log, had to drop the pole. The body was recovered in an hour's time but life was then extinct, and though every effort was made to resuscitate him, they proved unavailing, and the Jury of Inquest returned a verdict of accidental drowning.

THE PALMETTO GUARD CHARITABLE ASSOCIA-TION.—Few societies are fo ned for nobler purposes than those that makes charity, the chiefest of Christian virtues, their corner stone. At the close of the war the disbanded soldier trudged vestily homeward, and, although he removed the grim panoply of war and returned to civil pursuits, the associations formed in the army had been tried by too many fires not to prove pure gold, and it was found impossible to forget friends and comrades who had fought side by side. Charitable associations were formed by the various city corps, the principle adopted being: 1st, Charityo lend a helping hand to a suffering comrade and to succor the distressed. 2d, To form a club where an evening, once every month or quarter, could be pleasantly spent, not in tighting anew the past battles, but in social intercourse and friendly exchange of sentiments. The society GOING OFF AT HALF PRICE! whose name is at the head of this article was formed during the past year, and has kept its vitality unimpaired since. THE attention of our cotton planters is directed to the newly patented Iron Screw Cotton Press, to be found in our advertising columns to-day. We have a descriptive circular in our office, and as far as we are able to judge, it appears to combine the essentials of simplicity, durability, cheapness. and facility of transportation. The following is from the Greenville, Ala., Southern News, where they are extensively used:

are extensively used:

GRAY's Cotton Schew and Hay Press.—This new invention, which throws into disuse all previous presses, for packing cotton bales, has proved a perfect success, if we may take for evidence the assurances of planters who have had them erected on their plantations, and thoroughly tested them. From their laudstory remarks we gather that it is indeed the latest improvement of the age, and, enuanting from the brain of a Southern gentleman, it can be claimed purely as a Southern invention. Hitherto inventions, notone, &c., have come to us patented from the North; but hereafter we think the prospect is fair for Southern genius to come into competition.

The advantages of Gray's Cotton and Hay Press over all others that have ever been in use are many and easily observable. In these days of scarcity of labor, and the necessity which presses on the planter to husband all his force. This improvement on the old cotton screw is invaligable. Instead of the laborious process of the old screw, this combines ease and power. Its mechanical combinations are so nicely balanced that even one man's force on the laver produces more compressing power than a mule hitched to the lever of the old-fashioned screw. We have heard the testimony of old planters who have packed cotton for years, and thoy are unanimous in their expressions of approval. We wish our space would permit us to enter more descriptively into the merits of this niew p-tent; but we think every planter who does not purchase one of Gray's Cotton Screws is standing in his own light.

own light.

Mr. R. H. GRAY, the patentee, served through the war in the Washington Artillery of New. Orleans, but is a native of Alabama, where he last season first introduced them, and sold about one hundred to the cotton planters, which proved a decided success. We are pleased to notice this Southern invention

and hope to have many more to note, as we have no doubt it is one of the best ways of reconstructing our fortunes and thereby our country. It will be observed that Mr. C. K. HUGER, at No 73 East Bay, Charleston, is the general agent for

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough trial of the American Polygrade Lead Pencils, man-nictured by the American Lead Pencil Company. New York, I find them superior to any pencil in use, even to the Faber or the old English Cumberland Lead Peneil. being a superior pencil for sketching, ornamental and mechanical drawing, and all the ordinary uses of a least

pencil.

Those pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives magreat pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils. LOUIS BAIL, Professor of Drawing, &c.

IN, AS A REMEDIAL AGENT, HAS BEEN IN FAVOR with the profession for a very long period, but
owing to the difficulty of obtaining a pure article, it has
fallen into disuse in many sections of the country, much
to the regret of medical men, who consider it almost a
specific in very many diseases. For all cases of Gravel,
pure Gin, if administered under professional guidance,
will certainly work a cure; and if taken as a preventive,
acting, as it does, on the sensitive membranes, it cleanses
the parts so as to remove all possible sediment. Administered in the same way, it will prevent the formation of

Gin is of incalculable benefit to females in those diseases so peculiar to the sex, and from its tonic, as well as its anodyne properties, it is frequently superior to iron, bark, or even the electrical remedies. In cases of a positive tendency to Phithiss, or Consumption, Gin, in proper quantities, by supplying or filling up the constant dying out of the natural fire of the system, will often entirely ward off that swful disease, which carries off one-eighth of the population of the United States annually. Pure Gin has this peculiar advantage over other diffusible stimuli, that it exhilarates without creating any thirst of an unlealthy character, it soothes while it also excites, on unhealthy character, it soothes while it also excites "BININGER'S OLD LONDON DOCK GIN possess all the qualities that can be desired for the highest and noblest use of all wines or liquors.
